

Five Challenges For Our Generation

- 1. How do we view the Bible?**
- 2. How do we overcome the world?**
- 3. How do we build a biblical faith in our children?**
- 4. How do we reach the lost?**
- 5. How do we deal with apostasy?**

An Overview and an Introduction

Anyone who is familiar with history can see that every generation of God's people are faced with crucial issues that must be faced. This is true of our generation. Those who have lived through the 50's and 60's have witness an unparalleled change in both the social and moral structure of our country. The security guards overseeing our cars outside during this service are a testimony to that. Any change within the society around us will have a corresponding effect upon Christians in that society. A careful study of the churches of Asia in the book of Revelation will show the struggle that must take place in light of the surrounding social conditions.

This is a series based upon crucial questions that I believe the church of this generation must face if we are to remain the Lord's church or simply become one of the man-made churches around us. Whether or not I have selected the most critical questions, the solution for all problems of every generation remains a full application of God's perfect word to our lives (**Acts 20:20,21; 26-27**).

Our Order of Study

1. We will first examine the scriptural foundations of each subject.
2. We then will examine where brethren under the cloak of "change" are advocating where we should go.
3. We then will examine what we should do to teach the truth and avoid the present apostasy on this subject. We will ask the question: "What do we truly need to change?"

Please feel free to ask questions or participate in any other way. If you wish more detailed material on these subjects let me know!
